

## Progress Announces Over Twenty New .NET Development Components in Latest Release of Telerik Developer Tools

October 17, 2018

*Industry leader for .NET UI development tools delivers new components, themes, skins and customization options to boost productivity and improve the look and feel of new and existing applications*

BEDFORD, Mass.--(BUSINESS WIRE)--Oct. 17, 2018-- [Progress](#) (NASDAQ: PRGS), the leading provider of application development and digital experience technologies, today announced the latest release Telerik tooling for .NET developers. With today's release, Progress offers over twenty new Telerik components and expands the most popular components, including Grid and Charts. It also adds new themes including a Material inspired theme and a Mac inspired Crystal theme.

Adding to its rich library of components, Progress has released new components including:

Web:

- A MultiColumnComboBox component and new TreeList features for ASP.NET MVC, ASP.NET Core, JSP, PHP, jQuery and Vue
- ArcGauge and a new Chat feature for ASP.NET MVC, ASP.NET Core, JSP and PHP
- Notification components as well as Chart features for Angular
- MultiViewCalendar, Stock Chart, Sparkline Chart and Dialog components and Grid features for React
- Material-inspired theme for ASP.NET MVC and ASP.NET Core
- Feature enhancements for HTML Charts, Drawing, Gantt, PDF Export and Spreadsheet for ASP.NET AJAX
- Cloud Integration, Docs & Sample Apps update

Mobile:

- Built in log-in, authentication and app feedback screens
- Expander, Accordion, Financial and Donut Charts for the charting component
- Border and Checkbox as well as scheduling features for the Calendar control

Desktop:

- Mac-inspired Crystal theme
- MultiColumnComboBox control and selection support for the Image Editor
- Bookmarking functionality in PDFViewer for WPF
- Agenda view in the Scheduler and NavigationView mode in the PageView for WinForms

In addition, as part of Telerik DevCraft™ tools Progress has released a new version of [Progress® Kendo UI®](#), the industry-leading tooling for building modern Web UI. With this release, Kendo UI tooling becomes the only commercial JavaScript component toolset to fully support [WCAG 2.1 compliance](#).

"As developers, we understand how difficult and time-consuming it can be to create applications that not just work but also have stunning UI," said Faris Sweis, SVP & General Manager Developer Tooling Business, Progress. "Having the best and most modern tools and UI components can be a great boost of productivity and enable our customers to build incredible applications that their end-users will fall in love with. We are pushing the limits on all fronts to serve our developers as always and as we have done since day one."

The latest Telerik release is available today for download. For more information, [click here](#) or [register](#) for the archived webinar, "Telerik R3 2018".
