Progress Software Acquires Nuclia, an Innovator in Agentic RAG AI Technology

June 30, 2025

Company adds easy-to-use agentic RAG-as-a-service product for organizations to automate and retrieve verifiable, high-quality AI search and generative answers

BURLINGTON, Mass., June 30, 2025 (GLOBE NEWSWIRE) -- Progress Software (Nasdaq: PRGS), the trusted provider of AI-powered digital experience and infrastructure software, today announced the acquisition of Nuclia, an innovator in agentic Retrieval-Augmented Generation (RAG) AI solutions. Nuclia provides a unique agentic RAG-as-a-service product enabling organizations to automatically leverage their own proprietary business information to retrieve verifiable, accurate answers using GenAI.

“Nuclia’s easy-to-use, self-service SaaS product democratizes the use of trustworthy and verifiable GenAI,” said Yogesh Gupta, CEO of Progress Software. “Small to mid-sized businesses, as well as large global corporations, can quickly and easily reap the benefits of sophisticated agentic RAG capabilities using Nuclia SaaS without the need for significant upfront investment.”

“The rapid evolution of AI has transformed how organizations interact with information, creating new possibilities for more accurate, dynamic, and context-aware systems,” said Eudald Camprubí, CEO and Co-founder at Nuclia. “Agentic RAG is a cutting-edge approach that combines the power of large language models (LLMs) with business’ own proprietary data to provide accurate and trustworthy answers. Our team at Nuclia is proud of what we have built, and we are excited to join Progress to continue to advance this important technology.”

Nuclia will extend the end-to-end value of the Progress Data Platform while creating opportunities to reach a broader market of organizations looking to easily leverage the value of agentic RAG technology.

The acquisition was signed and closed today and is immaterial to Progress’ financials.
